

## President's Letter 2011

We started the year by offering FREE CE credits this year after paying for annual membership fee of \$20 (\$10 for students). Another change from the recent past is having presentations every month – except for taking a summer break in July and August. TAHIMA meetings are held at TCC, bldg L2 the 3<sup>rd</sup> Thursday of the month at 5:30 for registration and networking with the speaker beginning at 6pm. Each presentation is two hours with two CEUs given.

We have a great board that has lots of energy and great ideas. We encourage member input and participation. You can contact us via our website or by email at [tahima2010@gmail.com](mailto:tahima2010@gmail.com)

Our website is new and improved. If you have a job to post, comments, events, please send them in to us.

Our latest offering at our September meeting was presented by Penne Perry, Cancer Tumor Registrar for Franciscan Health Systems. Penne was very well received. If you missed the meeting, please look on this website for her power point. We are hoping to have Penne back as there were so many questions left unanswered. Look for an encore in 2012.

Future TAHIMA meetings planned:

October – ICD 9/10 Updates

November – Respiratory System

December – Speaker TBA + end of year party

January 2012 – CPT Updates

We are always looking for volunteers for our committees and Board Members. Please feel free to offer yourself or co-workers/friends talents.

I look forward to hearing from you via email or seeing you at our next meeting.

Helen Conroy, RHIT  
TAHIMA President, 2011
